O R D E R:

One of the conditions under the well subsidy schemes is that the well dug should have not less than 6 feet of water even during the height of summer in all districts except Coimbatore district where the limit is 4 feet. The Government consider that the concession shown to Coimbatore district may be extended to the other districts also if the Collectors of those districts recommend an extension of such concession to their districts. The Board of Revenue is accordingly authorised to extend such concessions to districts other than Coimbatore if the Collectors of those districts address the Board for such extension.

2. The Collectors of districts other than Coimbatore are requested to apply to the Board of Revenue for the concession allowed in para 1 above if conditions in their districts warrant the grant of such concession.
